SHEEP AND CATTLE LOOSE MIX SUPPLEMENTS

DRY FEED SUPPLEMENTS

- Greater utilization of old dead grass by increasing rumen protein levels.
- Increased throughput of lower quality feed to balance energy requirements.
- Increased energy availability by rumen modifiers - more energy from every mouthful.
- Convert weight loss to significant weight gains on poor quality pastures.
- Maintenance levels of vitamin and minerals.
- Urea content stabilized.
- Low consumption - low cost.

GREEN FEED SUPPLEMENTS

- Increased weight gains – reduced scouring on flush green crop or pasture.
- Increased Bloat control on flush legume crops/pasture – ideal method of dispensing Rumensin.
- Increased energy from the total feed available to the animal - rumen modifier.
- High magnesium content to help control Grass Tetany.
- Maintenance levels of vitamin and minerals.
- Low consumption - low cost.

WELCOME TO THE INLAND DEVON BREEDERS 8TH ANNUAL SALE

Commitment to producing Quality Bulls, and Fertile Females with outstanding Mothering Abilities, leading to production of Better Beef for the consumer.

We are excited to present to you a draft of 40 bulls that would suit any pure or cross bred operation. We believe these cattle to be the complete package bred by producers who require the reliability in these traits themselves:

- **Efficiency - proficient at producing more kilograms from less input**
- **Fertility - consistently high calving rates**
- **Growth - excellent converters of grass to meat, providing high yields of saleable beef**
- **Eating quality - highly regarded for beef of premium eating quality**
- **Genetic Diversity - one of the oldest and purest recognised breeds. Being such a pure breed with a solid colour, Devons are an ideal choice to stabilise and complement any breeding program**

Please bring this catalogue on the day to ensure that you will have one.

Meet the Vendors

Gowan Ross Devon and Poll Devon Stud

Vic & I looking forward to welcome you to Coonabarabran for our 8th Inland Devon Breeders sale. Improved beef prices have given a much needed boost to confidence in the beef industry. Long may it last!

My offering of bulls this year are all pasture fed and prepared on forage oats with the exception of Lot 2 & Lot 7 who have been shown.

Many of the poll bulls have been gene tested by the University of Queensland. Those that are homozygous are shown but more will be tested before the sale. Four Gowan Ross bulls are tested homozygous poll.

All Gowan Ross bulls are tested for PI and are vaccinated with 7 in 1, vibrovax, bovillus plus IBR. Gowan Ross herd has a biosecurity level of J-BAS 8, making them eligible for entry interstate.

The Gowan Ross and Vix herd is performance recorded including carcase traits.

Female lots catalogue will be available on the Inland Devon Breeders web site, on Auctions Plus and at Sale.

Gundooee Poll Devon Stud

We are proud to once again be involved in the Annual Sale of the Inland Devon Breeders. We welcome buyers and we wish you all well with your purchases. We would like to thank Alison and Vic for hosting the sale at their property Camkeena.

Our selection of 6 bulls are in very good working order ready to go straight to work in your herds. All bulls are registered and transfers are available at no cost for those who request them. Our bulls are now in a variety of situations and by all means our buyers have been impressed with their progeny. We are certain that any Gundooee bull purchased at this sale will offer the buyer the same success in their breeding operation.

Dennis and Tania Hall

P. 02 6844 6266

E. gundooee.hall@harbourisp.net.au

VIX Devons

For this 8th Inland Devon Breeders sale Vix Devons are presenting 17 bulls. They include two big powerful boys that have led my show team, the remainder are paddock reared on natural pasture with dry lick supplement through dry periods & grazed on Oat crop pre sale.

The true strength of Devon Cattle is their constitution to perform well throughout all seasons and better than others in tough years. Thus we expect our bulls to be the better performers in the paddock when not fed to their genetic potential for weight gain. My cattle are backed by over 30 years of Breedplan performance recording & selection for sound structure.

Our Devon steers consistently meet the highest MSA specifications for HGP free premium grassfed beef.

Vix cattle have a Biosecurity level of J- BAS 8 allowing transport interstate, bulls are Vet soundness checked, PI tested & vaccinated 7 in 1, Vibrovax, Pestiguard & Bovillus + IBR to ensure breeding reliability in your herd. In addition Vix is offering 20 plus females, mostly cow/calf units. Female catalogue available on Inland Devon Breeders web site, Auctions Plus and at Sale

DIRECTIONS

Camkeena 8266 Newell Highway. Coonabarabran

Travel South West from Coonabarabran on the Newell Highway, towards Gilgandra. The turn off to Camkeena is approximately 11km from the southern edge of Coonabarabran at the bottom of the hill on the left next to the Camkeena rest area, which has a large model of the planet Saturn. Just pull into the rest area, do a U turn into the Camkeena track. Follow the signs. If using a GPS enter 8266 Newell Highway Wattle Springs the GPS will recognise Coonabarabran as well.

Be prepared for all types of weather. Sometimes gumboots are a necessity.

Breedplan Explanation

BREEDPLAN is a performance evaluation program that describes the genetic profile of animals for a number of commercially important traits. This profile is given as an Estimated Breeding Value (EBV), expressed as a figure (+/-) relative to the breed benchmark of zero (0) for each trait.

The EBVs in this catalogue are Devon Group Breedplan EBVs for 2015 and can be directly compared with Devon Group Breedplan EBVs from other herds.

To evaluate the performance profile of each animal, its EBVs can be directly compared with the EBVs of other bulls/females against the breed benchmark of zero (0) or against the current breed average EBV for each trait, which for the 2013 born calves was:

2017 Devon Group Breedplan EBVs - Average for 2015 born calves

GL	BW	200	400	600	Milk	SS	Cwt	EMA	Rib	Rump	RBV	IMF

How the Helmsman system interfacing with Auctions Plus works.

For those attending the sale

- On arrival intending purchasers need to register at the bid table and receive a buyer number.
- All animals are displayed for inspection prior, and during the sale.
- When the sale commences, all animals are on the market simultaneously. You may bid on any animal regardless of lot number, by filling in a bid card and handing it to the agent, or a "runner".
- You may open bidding at the reserve price indicated for each animal on the white board and contest bids in multiples of no less than \$100.00
- Bids are recorded, with the buyer's number, on a large board adjacent to the animals. You can bid on any number of animals at once, and see at a glance whether your bid still stands or has been over-bid.
- There is no pressure to commit yourself to another bid. If your "first choice" animal goes beyond your limit you can still bid any other animal in the sale.
- The sale will remain open for a minimum of 30 minutes. A bid registered in the last 2 minutes will result in a 2-minute extension of selling time. Any further bids trigger the same process until a full 2 minutes "no bids" period concludes the sale.
- **A bid once submitted and recorded cannot be retracted.**

For those bidding via Auctions Plus

- The Sale will run for a minimum of 30 minutes. From the 30-minute mark, the timer controls the auction.
- Sales are managed by the auction timer – the clock counts down and when it is at 2 minute increments, it will automatically close the sale if there is no bidding activity within the 2 minutes.
- If there is a lot of bidding activity the sale will run for longer than 30 minutes, the length will be determined by the market, not AuctionsPlus staff. Market Operators will continue to call buyers at the start of the sale notifying them of stock that match their specifications.
- Don't forget to register to bid on Auctions Plus prior to the sale. <http://auctions-plus.com.au/Registration>
